Medicare Prescription Drug Coverage

“Extra Help” for People with Limited Income & Resources

April 2007

What is Extra Help?

Individuals with limited income and resources can qualify for extra help to pay for drug costs under the Medicare prescription drug coverage. People who qualify will receive help paying for monthly premiums and/or cost sharing. The amount of extra help depends upon the amount of income and assets.

Who Qualifies for Extra Help?

People with Medicare who also receive full Medicaid benefits, SSI recipients and individuals enrolled in QMB, SLMB, and QI will automatically receive extra help to pay for prescription drug costs through the Medicare prescription drug coverage.

An individual with annual income below \$10,512 (100% FPL) and married couples with income below \$14,292 (100% FPL) have reduced costs:

- No premium if the individual selects a plan at or below the national benchmark (\$27.35 in 2007). If a more expensive plan is chosen, the beneficiary pays the difference.
- No deductible
- \$1 for generics or \$3.10 for brand name drugs until total out-of-pocket costs reach \$3,850
- After reaching \$3,850 out-of-pocket, drugs are free

An individual with income between \$10,513 – \$13,783.50 (135% FPL) and married couples with income between \$14,293 - \$18,481.50 (135% FPL) have reduced costs:
